Subject: RE: Written testimony for HB 2715, Hearing on the 20th in Elections

Diane: My written testimony is below. I hope that an email is satisfactory. Our concern was that House Bill 2715, on page 2 line 29 stated: "April in odd numbered years". The election of Drainage District Directors are elected for four year terms. The committee decided to change the wording to read: "April in election years." This should resolve The North Topeka Drainage District concerns.

As I advised you at the hearing, I was leaving the state for a vacation for three days and I would send you the information for my written testimony as soon as I returned from vacation. I returned to the office this morning. Thank you for the email.

Hi Dave, I started working on the minutes to the meeting and realized I didn't have your written testimony yet. Please send ASAP.

Thanks,
Diane
