Representative Shultz, Chairman
House Insurance Committee

Re: HB 2764

Dear Chairman Shultz & Members of the Committee:

My husband, Randy and I, work for Kansas State University. Both of our children, Alyssa and Ryan, were diagnosed with Autism. We use the Autism Insurance to cover their in home therapy costs and any additional therapy needed. Since they both need intensive therapy, this insurance has help us get the services for all their needs. Without this coverage, we would pay out of pocket and would have to limit their therapy a great deal. We are grateful for this insurance and our children have benefited from this greatly.

Sincerely,

Randy and Amy Juracek
Manhattan, Kansas
