

2012 Kansas Statutes

76-316. Bureau of child research. There shall be established at the university of Kansas a bureau of child research for the purpose of studying the problems of the child life of the state, including studies as to the diagnosis, treatment, and prevention of delinquency, defectiveness, and dependency; studies in normal inheritance, development and training; studies of family and community life in their relation to child life.

History: L. 1921, ch. 282, § 1; May 25; R.S. 1923, 76-316.
