

# Kansas Lottery Veterans Benefit Tickets

Legislation passed by the 2003 Legislature authorizes net profits from Veterans Benefit Games to go directly to designated veterans programs. Every penny of the money is used here in Kansas and goes to provide basic things for our Kansas military veterans.

All net profits received from the sale of Kansas Lottery Veterans Benefit Games are deposited into the state treasury and are then directed to three special funds:

- 40 percent for National Guard educational assistance act scholarships
- 30 percent to the veterans home fee fund to be used for the Kansas veterans homes and the state veterans cemetery system
- 30 percent to the veterans enhanced service delivery program
- Initially, Veterans Benefit Games were sold only from May through November each year. A change in the legislation authorized the Lottery to sell the games year round, starting in May 2008. Fiscal Year 2009 was the first year that included year round sales.
- **How does the Kansas Lottery transfer revenue from Veterans games?**
- Net profits from the sale of Kansas Lottery Veterans games are transferred to the state treasury once a year on June 15. The transfer is made at the same time as the Lottery makes its monthly transfer to the State Gaming Revenues Fund. From the state treasury, the Veterans Benefit funds are distributed directly to the designated programs, according to the percentages in the legislation.
