To Whom It May Concern,

We are writing in support of our choice to have our health care managed by an Advanced Registered Nurse Practitioner, specifically Dr. Karen Roberts, ARNP. John and I prefer our visits with Karen over regular MD visits for many reasons, not the least of which are her caring demeanor and practical and wholistic approach to our health care. Karen schedules her time to be able to really assess our needs and listen to our concerns. She never orders unnecessary testing and includes each of us in choosing the correct treatment for our problems. Given the choice, we prefer to access Karen for any health concerns that arise, knowing she will not hesitate to collaborate with other specialists or physicians should the need become apparent.

We sincerely hope we will be given this basic choice when it comes to deciding which practitioner to see at the medical clinic of Internal Medicine Group.

Thank you,

Shannon and John Musgrave
