February 15, 2019

To whom it may concern,

The City of McPherson has video on Facebook of the last year by a media person. We have just switched to doing the Governing Body Meetings this year with live feed to Youtube. We will include ther meetings throughout 2019. Where feasible cities will convert to this format. We do not need a statute to make the transition. Smaller cities will find ways to use cell phones and Facebook or Youtube to record meetings. The cost of equipment and the possible unlimited time to keep recordings is the biggest concern. Larger cities will and are making recordings available. Statutes with poor wording and later court rulings and interpretations are unnecessary action.
