Proponent Testimony

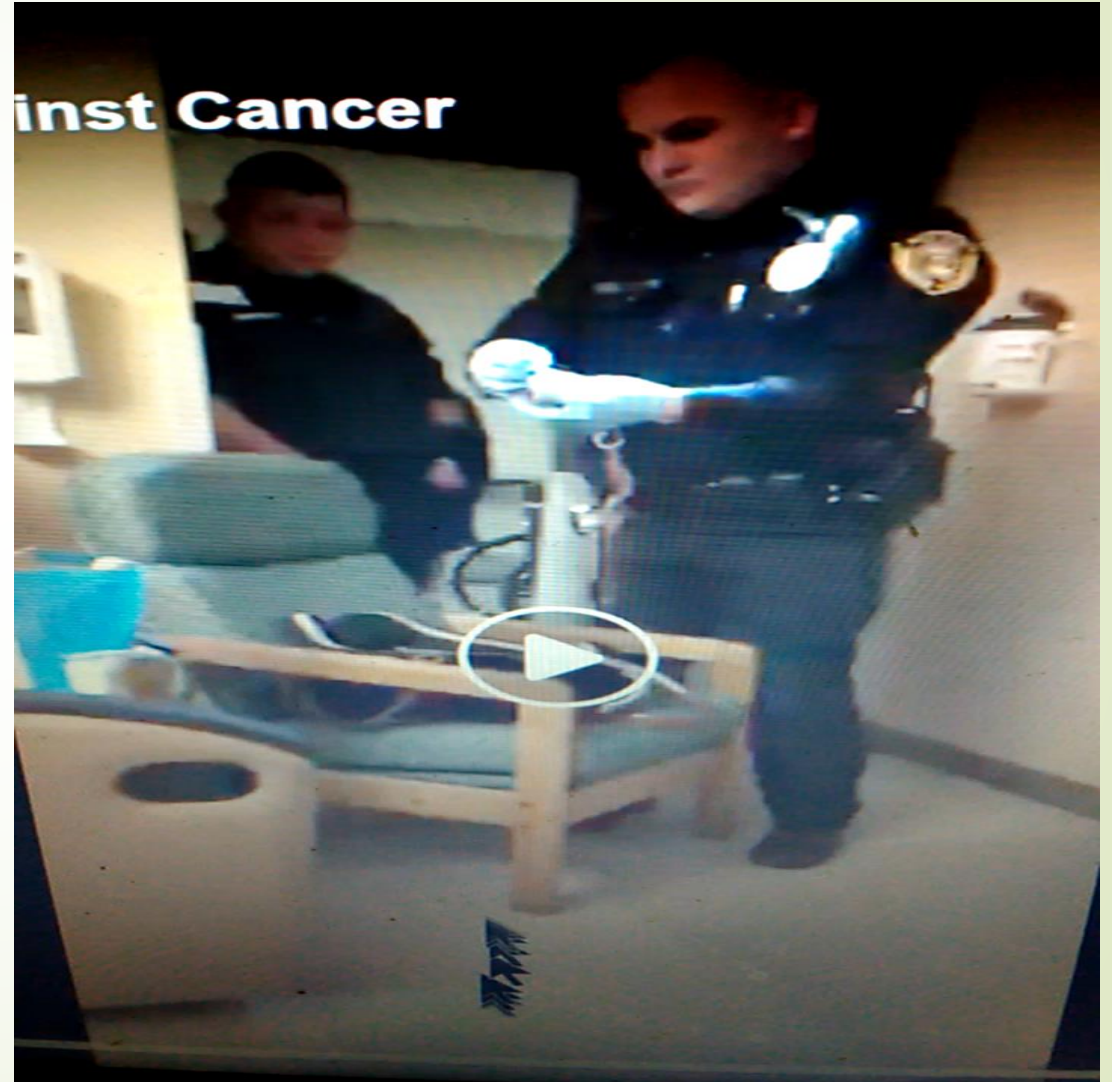

House Judiciary:

HB2244

Rep. Fred Patton Chair

Although I am a proponent of this bill, I believe it should be amended to De-Schedule cannabis, in all forms, from the Kansas state Controlled Substances Act and eliminate crimes regarding self-reliance and the possession, thereof.

Law Enforcement and Legislative Priorities VS Constitutional and Criminal Intent

- ▶ Bill would allow affirmative defense to possess a controlled substance
 - ▶ This body can and should do better
- ▶ Newton Police Chief Eric Murphy speaking to the Newton Chamber of Commerce
 - ▶ August 29, 2017

“We had one officer who was doing nothing but, working drugs himself, that is very difficult to do, for a single person to go out and do a drug buy, it's unsafe to do, and so we would pull from our investigators, pull them off other cases, like child sex cases, thefts, burglaries and other things to go out and help our drug detective do the drug buys.” – Chief Murphy
