

2020 Kansas Statutes

8-1762. Transportation network company lighting device; city ordinance; requirements. (a) The governing body of a city may adopt an ordinance that allows a driver for a transportation network company, who is logged on to the transportation network company's digital network, to equip the vehicle with a lighting device capable of displaying light visible from directly in front of the center of the vehicle. Such lighting device may display: (1) Steady light; and (2) light of any color, except red.

(b) The words and phrases used in this section have the meanings respectively ascribed thereto by K.S.A. 2020 Supp. 8-2702, and amendments thereto, unless a different meaning is plainly required by the context.

(c) This section shall be a part of and supplemental to the uniform act regulating traffic on highways.

History: L. 2019, ch. 61, § 1; July 1.
