

**Testimony of Kansans for Lower Electric Rates and  
Kansas Industrial Consumers Group  
In Support of HB 2181  
Before the House Energy & Utilities Committee  
February 9, 2021**

House Bill 2181 is a simple rate reporting bill that will allow the Legislature to monitor the progress of efforts to transition Kansas to regionally competitive electric rates.

In 2019 Kansans for Lower Electric Rates and the Kansas Industrial Consumers Group lead the effort, with several stakeholders, to pass SB 69, mandating an electric rate study *“to provide information that may assist future legislative and regulatory efforts to develop forward-looking electric policy that leads to regionally competitive electric rates and reliable electric service.”*

The rate study reports have been submitted and include several charts, key insights and ideas to lower rates. We appreciate the Legislature’s support of the rate study.

The Kansas Corporation Commission (KCC) currently provides an annual report to the Legislature that provides a thorough overview of utility rates, regulatory proceedings, and supply and demand statistics.

HB 2181 amends 66-117b to require the KCC to also include information on the average electric rates in other states in the region so the Legislature and others can easily understand how Kansas rates compare.

This reporting can be easily done with public data. Several examples using public data are attached. The KCC would be able to provide the benefit of consistency in the reporting format.

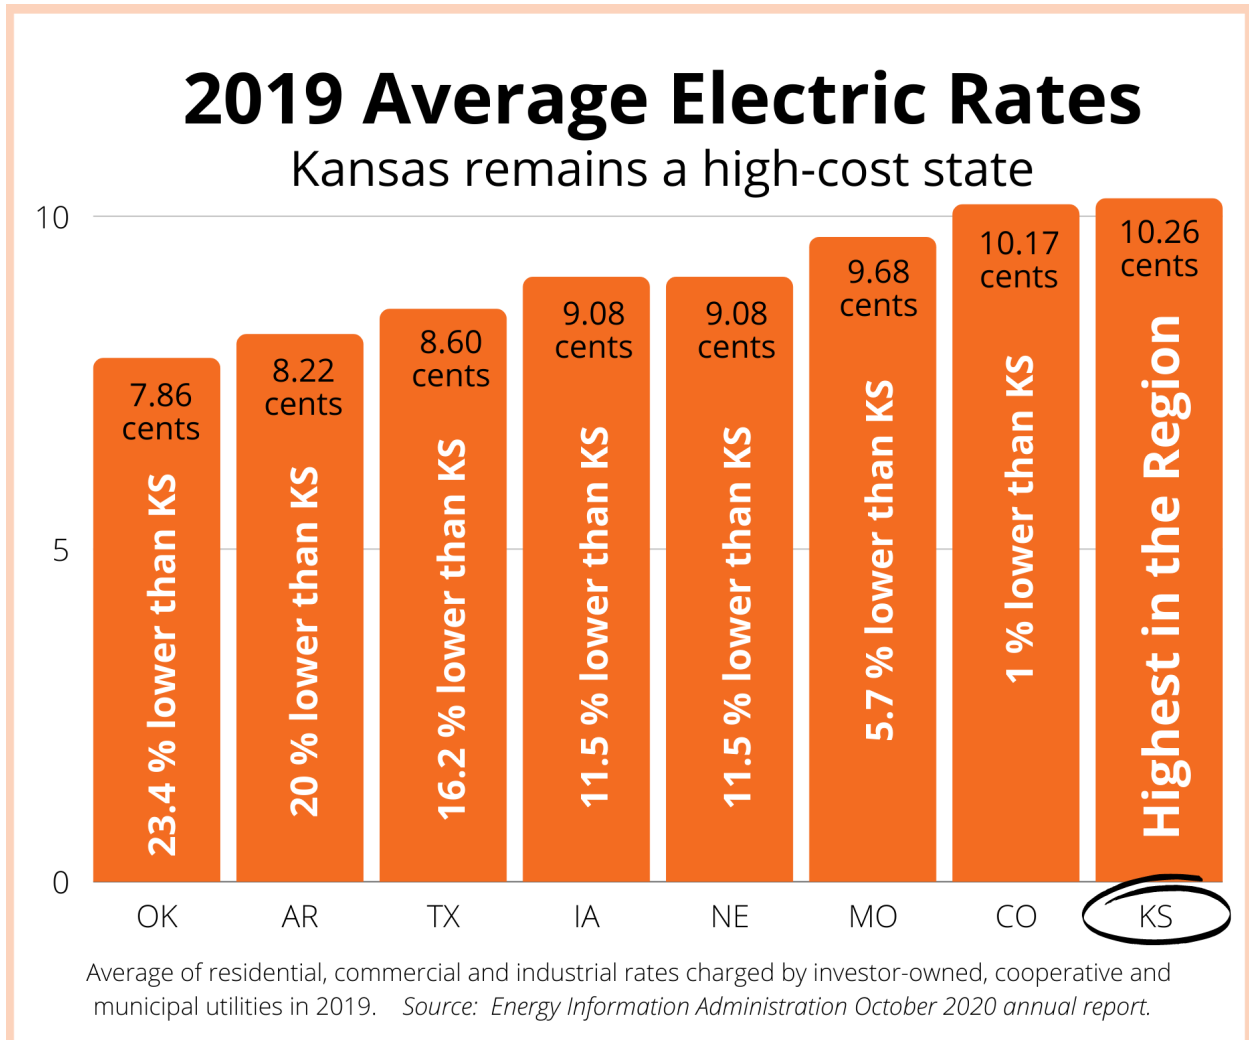

We urge the committee to support HB 2181.

*The Kansas Industrial Consumers Group is a coalition of large-volume energy users in Kansas. The members collectively represent billions of dollars of investment in the State and employ thousands of Kansans. Kansans for Lower Electric Rates is an advocacy project of KIC with members of all sizes. We believe high energy costs are negatively impacting residential consumers, schools, hospitals, and large and small businesses.*

## Regional Electric Rate Comparison

2019 -- Sorted by Residential

		Residential	Commercial	Industrial
<b>Municipal Utilities<sup>1,2</sup></b>	State	(c/kWh)	(c/kWh)	(c/kWh)
McPherson Board of Public Utilities	KS	7.17	6.52	5.01
Omaha Public Power District	NE	10.43	10.40	8.00
Independence Power & Light	MO	13.70	11.99	8.45
Kansas City Board of Public Utilities	KS	14.36	11.68	8.30
<b>Investor Owned Utilities<sup>3</sup></b>				
Southwestern Electric Power Company	AR	8.41	6.60	5.51
OG&E Electric Services	OK	9.64	7.27	5.06
Public Service Company of Oklahoma	OK	10.05	6.88	4.97
MidAmerican Energy	IA	10.35	6.80	5.04
Ameren Missouri	MO	10.35	8.16	6.09
Public Service Company of Colorado	CO	11.14	10.40	7.00
Evergy Missouri West (KCP&L GMO)	MO	11.46	9.24	6.92
Evergy Kansas Central (Westar)	KS	12.72	10.36	7.53
Evergy Missouri Metro (KCP&L)	MO	13.18	11.21	7.96
Evergy Kansas Metro (KCP&L)	KS	13.32	11.13	8.52

*Notes: <sup>1</sup> Charges for the PILOT have been included in rates. <sup>2</sup> Rates are calculated using current rates and the same billing determinants as EEI rates. <sup>3</sup> Rates are weighted averages of 4 months summer and 8 months of winter EEI rates.*
