

Dear members of the House Fed + State Committee:

Protecting victims of domestic abuse and their children from their abusers is a bipartisan issue.

Now is the time to require prohibited domestic abusers to turn in the guns they may already have.

I am a Kansas gun owner who supports the Second Amendment.

Protecting victims of domestic abuse is not a gun rights issue ... it is a human rights + safety issue!

Kansans have the right to feel safe and protected from potential deadly altercations with their abuser.

I urge you to support HB2251.

Jo Dee Adelung
