Debbie Irene Detmer Shawnee, KS

I support bill HB 2513

Chairman Representative Kristey Williams and the Education Budget Committee Members,

The social emotional learning going on in the schools with no transparency has to stop. The mining of minor children's data is a big concern. Before any behavior test is given the parents need to sign off and give their permission for the collection of their child's data. The transparency is a must.

Thank you for hearing this matter.
