Yes, please submit as written testimony.

Thanks!

Glen

Representative Williams,

Please support HB2513.

It is wrong for schools to intrude on personal values of parents and their children and collect information on their homes. Tests that do that are in violation of the spirit of the 4th Amendment to the U.S. Constitution. With these tests schools can potentially find evidence of crimes, or potentially future thought crimes that may be enacted by Congress.

When these tests require children to think about suicide intensively and consider whether they may commit suicide and the circumstances, it plants the idea of suicide in their minds. This is very dangerous.

It is said that only 20% of the school day is spent on academics and the rest is spent on Social Emotional Learning. Considering that Kansas children do very poorly in academic tests compared to other nations, I believe that academics should get more time and more emphasis.

Thank you for serving our state!
