

Committee Assistant, Holly Broxterman

Holly.broxterman@house.ks.gov

Dear Holly,

I am writing in support of HB 2513. Social Emotional Learning (SEL) is invasive to students and burdensome to educators. The bill supports the right of parents to know what information their children are being asked to provide which increases the possibility the parents can meet their primary obligation of keeping their children and information about their children safe. HB 2513 will inform parents and prevent schools from collecting massive amounts of data from unknowing students.

Thank you,

Janice Schierling
