Session of 2021

HOUSE BILL No. 2005

By Representative Highland

12-17

1	AN ACT concerning the boiler safety act; relating to exceptions to the
2	applicability of the act; specifications for certain hot water supply
3	boilers; amending K.S.A. 2020 Supp. 44-915 and repealing the existing
4	section.
5	
6	Be it enacted by the Legislature of the State of Kansas:
7	Section 1. K.S.A. <u>2020 Supp.</u> 44-915 is hereby amended to read as
8	follows: 44-915. (a) The provisions of this act shall not apply to:
9	(1) Boilers and pressure vessels under the control of the United States
10	government or federal law;
11	(2) antique, scale model or other steam boilers-which that are used
12	exclusively for exhibition purposes and which are inspected by
13	associations that have established an approved inspection procedure and
14	whose inspectors are registered as special inspectors with the state fire
15	marshal;
16	(3) fire engine boilers brought into the state for temporary use in
17	times of emergency;
18	(4) boilers and pressure vessels located on producing oil and gas
19	leases or storage areas, and outside the limits of any municipality, used
20	solely for oil and gas production purposes;
21	(5) hot water supply boilers which that are directly fired with oil, gas,
22	electricity or solar energy and which are equipped with pressure and
23	temperature safety relief valves approved by the American society of
24	mechanical engineers or the national board of boiler and pressure vessel
25	inspectors, if none of the following limitations is exceeded:
26	(A) Heat input of 200,000 BTUH;
27	(B) water temperature of 210° Fahrenheit; and
28	(C) nominal water capacity of 85 gallons or 120 gallons for an-
29	electrical utility generating plant;
30	(6) pressure vessels constructed and installed prior to January 1,
31	1999; and
32	(7) pressure vessels used to store or transport anhydrous ammonia.
33	(b) The provisions of subsections (b) and (c) of K.S.A. 44-923(b) and
34	(c), and amendments thereto, and the provisions of K.S.A. 44-924, 44-925
35	and 44-926, and amendments thereto, shall not apply to:
36	(1) Boilers and pressure vessels located on farms and used solely for

1 agriculture or horticultural purposes;

2 (2) heating boilers and pressure vessels—which *that* are located in 3 private residences or in apartment houses of less than five family units;

4 5

(3) boilers and pressure vessels operated and regularly inspected by railway companies operating in interstate commerce;

6 (4) any boiler and pressure vessels in any establishment in which 7 petroleum products are refined or processed in which all boiler and pressure equipment is inspected and rated either by an inspection service 8 regularly maintained within such establishment or provided by a 9 manufacturer, designer or insurer of such equipment, in accordance with 10 the applicable provisions of any published code or codes of rules or 11 recommended practices nationally recognized in the industry of which 12 such establishment is a part as providing suitable standards for the 13 inspection, repair and rating of pressure equipment of the type used in such 14 15 establishment:

(5) pressure vessels used for transportation and storage of compressed
gases when constructed in compliance with specifications of the United
States department of transportation and when charged with gas marked,
maintained and periodically requalified for use, as required by appropriate
regulations of the United States department of transportation;

(6) pressure vessels located on vehicles operating under the rules and
 regulations of other state authorities and used to transport passengers or
 freight;

(7) pressure vessels installed on the right-of-way of railroads andused in the operation of trains;

26 (8) pressure vessels having an internal or external operating pressure
27 not exceeding 15 psig with no limit on size;

(9) pressure vessels having an inside diameter, width, height or cross
 section diagonal not exceeding six inches, with no limitation on length of
 the vessel or pressure;

(10) pressure vessels for containing water or other nonflammable
 liquids under pressure, including those containing air, the compression of
 which serves only as a cushion, when neither of the following limitations
 is exceeded:

35 36 (A) A design pressure of 300 psig; or

(B) a design temperature of 210° Fahrenheit;

(11) pressure vessels—which that may be classified as pressure
containers—which that are an integral part of components of rotating or
reciprocating mechanical devices such as pumps, turbines, generators,
engines and hydraulic or pneumatic cylinders, where the primary design
considerations and stresses are derived from the functional requirements of
the device;

43 (12) pressure vessels that do not exceed: (A) 15 cubic feet and 250

- 1 psi pressure; or (B) $1^{1/2}$ cubic feet in volume and 600 psi pressure; and
- 2 (13) pressure vessels installed and constructed before January 1, 3 1999.
- 4 Sec. 2. K.S.A.<u>2020 Supp.</u> 44-915 is hereby repealed.
- 5 Sec. 3. This act shall take effect and be in force from and after its 6 publication in the<u>Kansas register</u> *statute book*.
