K.S.A. 65-2800 et.seq. gives the Board the authority to investigate and sanction those professionals licensed and regulated by the Board. The Disciplinary Department receives complaints and determines which ones meet the statutory requirements for an investigation. The Disciplinary Department is funded via the agency fee fund. If the agency ceased funding the Disciplinary Department, patients, hospitals, licensees and the general public would have nowhere to file a complaint when they felt a licensee was practicing outside their scope of practice or committed a boundary violation. This would leave patients and the general public unprotected from the unethical and below standard of care practice of medicine thereby putting people at risk of harm, injury or even death.
