

2021 Kansas Statutes

65-6114. Establishment of emergency communication system by municipality; purpose. The governing body of any municipality may establish, operate and maintain a centralized emergency service communication system as a municipal function, within or without the boundaries of the municipality, for the purpose of furnishing those services required to establish, operate and maintain an emergency medical service or ambulance service, and such emergency communication system may include a county or city fire dispatch communication service for the purpose of providing a common communication network for all fire-fighting facilities, equipment and personnel. Such emergency communication system may provide for coordinated communication between all law enforcement agencies, ambulances, ambulance services and dispatchers, emergency receiving centers, fire dispatcher services, fire departments, health care institutions, medical practitioners, motor vehicle repair and towing services, and such other persons and service agencies as may be required.
